# A-Panel Frame

## Product Information/Notes

• When the overall assembly width is 1400 or greater, the model need to add a centered vertical rod (included in the inner frame materials).
• Since there is no end top trim cap on either side, the Panel Frames in this series cannot exist as standalone single panels.

*For all other detailed configuration rules, please refer to the table below.

## Specification Information

Step 1

| Code | Description |
|---|---|
| **PVDS66NK** | Panel Frame |

Step2 Width

| Code | Material | | Assembled | |
|---|---|---|---|---|
| | Inches | mm | Inches | mm |
| **_24** | 23.62 | 600 | 23.62 | 600 |
| **_35** | 35.43 | 900 | 35.43 | 900 |
| **_47** | 47.24 | 1200 | 47.24 | 1200 |
| **_59** | 59.06 | 1500 | 59.06 | 1500 |
| **_71** | 70.87 | 1800 | 70.87 | 1800 |

Step3 Height

| Code | Material | | Assembled | |
|---|---|---|---|---|
| | Inches | mm | Inches | mm |
| **_53** | 52.99 | 1346 | 53.15 | 1350 |
| **_61** | 60.94 | 1548 | 61.02 | 1550 |
| **_69** | 68.90 | 1750 | 68.90 | 1750 |

Step4 Frame Finish

| Code | Description |
|---|---|
| / | Sandy Ink Black |

Prices for Steps 1-3

| | | **_53** | **_61** | **_69** |
|---|---|---|---|---|
| **PVDS66NK** | **_24** | $265 | $300 | $335 |
| | **_35** | $385 | $435 | $480 |
| | **_47** | $495 | $560 | $625 |
| | **_59** | $600 | $680 | $765 |
| | **_71** | $705 | $800 | $900 |

# B-Panel Rail

## Product Information/Notes

• After the panel is split, if the top or bottom edge of the panel cannot be fastened onto the screen inner frame, a horizontal rail of the screen inner frame needs to be added at the corresponding Height.
• The overall assembled Width of the horizontal rail is the same as the overall assembled width of the inner frame.
• When the width is 1400 or greater, the horizontal rail is split into two sections, so the material quantity is the single-section size multiplied by 2.

*For all other detailed configuration rules, please refer to the table below.

## Specification Information

Step 1

| Code | Description |
|---|---|
| **PVDS66HG** | Panel Rail |

Step2 Width

| Code | Material | | Assembled | |
|---|---|---|---|---|
| | Inches | mm | Inches | mm |
| **_24** | 23.62 | 600 | 23.62 | 600 |
| **_35** | 35.43 | 900 | 35.43 | 900 |
| **_47** | 47.24 | 1200 | 47.24 | 1200 |
| **_59** | 27.46*2 | 697.50*2 | 59.06 | 1500 |
| **_71** | 33.37*2 | 847.50*2 | 70.87 | 1800 |

Step3 Frame Finish

| Code | Description |
|---|---|
| / | Sandy Ink Black |

Prices for Steps 1-2

| | **_24** | **_35** | **_47** | **_59** | **_71** |
|---|---|---|---|---|---|
| **PVDS66HG** | $30 | $40 | $60 | $70 | $80 |

# C-Panel Frame Trim

## Product Information/Notes

• When the side edge of the inner frame is not connected to a Frame Trim, an End Trim Cap is used.
• A Top Trim Cap is used on the upper edge of the inner frame; if a top-mounted glass panel is required, a Glass-Retaining Top Trim Cap can be used instead.
• When one side of the Top Trim Cap connects to an End Trim Cap, the corresponding End Top Trim Cap should be used instead.
• The overall assembled width of the Top Trim Cap is equal to the overall assembled width of the inner frame.
• The overall assembled Height of the End Trim Cap is equal to the overall assembled height of the inner frame.
• All outer frames and trim caps within the same screen group must be the same color.
• The Panel Frame Trim may merge two Panel Frames only when three Panel Frames are involved.

*For all other detailed configuration rules, please refer to the table below.

## Specification Information

Step 1

| Code | Description |
|---|---|
| **PVDS66WK** | Panel Frame Trim |

Step2 Purpose

| Code | Description |
|---|---|
| **C** | End Trim Cap |
| **R** | End Top Trim Cap |
| **RB** | End Top Trim Cap – Glass Panel |
| **S** | Top Trim Cap |
| **SB** | Top Trim Cap – Glass Panel |

Step3 Width or Height

Height for End cover

| | **SB** | $90 | $115 | $145 | $175 | $205 |

# D-Panel Connection Post

## Product Information/Notes

• When inner frames are connected to one another, a Connection Post is automatically generated at the joint. A single Connection Post can connect up to 4 inner frames, and its overall assembled height is equal to that of the tallest screen frame connected to it.
• A single Connection Post can connect up to 2 panel frames with different overall assembled heights.
• A Connection Post allows step trim caps to be present in fewer directions than the post's total number of directions.
• When step trim caps are used in 2 or 3 directions, it is necessary to determine whether the step trim caps are arranged in an I-shape or an L-shape.
• If panel frames with end trim caps are to be joined together, the transition post and the end trim cap are interchangeable at the same position.

*For all other detailed configuration rules, please refer to the table below.

## Specification Information

Step 1

| Code | Description |
|---|---|
| **PVDS66ZJ** | Panel Connection Post |

Step2 Type

| Code | Description |
|---|---|
| **I** | 1-Way Square Post |
| **L** | 2-Way Square Post |
| **T** | 3-Way Square Post |
| **X** | 4-Way Square Post |

Step3 Post trim cover

| Code | Description |

# E-Panel Tile

## Product Information/Notes

• If panels of split or merged sizes exist, panels with an overall assembled width of 1200 or 1800 may be split into two panels of equal width. After a panel is split, the panel frames, horizontal rails, and top trim cap must be updated accordingly.
• If panels of split sizes exist, panels of all overall assembled heights may be split into two panels. After a panel is split, a horizontal rail must be added.
• If panels of merged sizes exist, panels of all overall assembled heights may be merged into two panels. After a panel is merged, a horizontal rail must be removed.
• Where a panel tile is divided into a left and a right section, the two sections shall be identical in material and color.

*For all other detailed configuration rules, please refer to the table below.

## Specification Information

# F-Gallery Panel

## Product Information/Notes

• Gallery Panel must be connected perpendicular to the panel frame; they cannot be connected in the same direction.
• When a Gallery Panel is connected to a desk edge, it must be flush with the long edge of the desk and extend 0.2" beyond the short edge.
• If a double-sided Gallery Panel is specified in an extendable splicing style, the panel will have holes on both sides.
• Gallery Panels for facing configuration use 29" depth with 0.2" outward clearance and 1" inward clearance.
• Clearance requirements may vary depending on workstation configuration.
• Gallery Panel Height shall not be higher than Steel Panel.

*For all other detailed configuration rules, please refer to the table below.

## Specification Information

### Step 1

| Code | Description |
|---|---|

# G-Return Panel

## Product Information/Notes

• Used as an end return for gallery panels.
• Compatible with desk-mounted gallery panel configurations.
• Height and width selections must match adjacent panels.
• A Return Panel must be connected to a gallery panel of the same height.
• When a Return Panel is connected to a desk edge, it must be flush with the long edge of the table and extend 0.2" beyond the short edge.

*For all other detailed configuration rules, please refer to the table below.

## Specification Information

Step 1

| Code | Description |
|---|---|
| **PVDS25RP** | Return Panel |

Step 2 Position Relative to the Desk

| Code | Description |
|---|---|
| **_IL** | Individual – Left Return |
| **_IR** | Individual – Right Return |
| **_FC** | Facing Return |

Step 3 Top Glass Option

| Code | Description |
|---|---|
| **_GL** | With Top Glass |
| **_NG** | Without Top Glass |

Step 4 Width

| Code | Material | | Assembled | |
|---|---|---|---|---|
| | Inches | mm | Inches | mm |
| **_24** | 24.92 | 633 | 23.62 | 600 |
| **_31** | 31.81 | 808 | 30.51 | 775 |
| **_48** | 48.62 | 1235 | 23.62*2 | 600*2 |
| **_61** | 62.40 | 1585 | 30.51*2 | 775*2 |

Step 5 Height

| Code | Material | | Assembled | |
|---|---|---|---|---|
| | Inches | mm | Inches | mm |
| **_53** | 52.99 | 1346 | 53.15 | 1350 |
| **_61** | 60.94 | 1548 | 61.02 | 1550 |
| **_69** | 68.90 | 1750 | 68.90 | 1750 |

Step 6 Color

| Code | Description |
|---|---|
| **S-56** | Castin Oak |
| **S-53** | Felix Walnut |
| **S-83** | Kata white oak |
| **S-84** | Kata grey oak |
| **S-57** | Warm White |
| **S-77** | White oak |

Prices for Steps 1-5
