

D1 Series

Beautiful modularity

D Series is an innovative collection of 45+ modular pieces that can be arranged and rearranged to build workstations, training spaces, social and cafe areas, meeting rooms and more.

Build creative configurations

The collection includes 120-degree lounges to let you build circular and S-shaped configurations. The 120-degree table has a USB port and wireless charger.

Cubicle alternative

D1 screens and tables can be combined into cubicles that are softer and easier to reconfigure than traditional panel systems.

Supports privacy and focus

The collection includes high-back booths and phone booths for focus work and privacy.
