

# I-Work Desks + Tables

I-Work is a collection of premium tables and height-adjustable desks, finished in beautiful walnut veneer.

## Design details

As with any luxury product, it's all about the details. Finished in walnut, I-Work desks and meeting tables are created to be "edgeless," with no hard edges or corners.

### Agile, silent and convenient

The desk has an adjustment range of 29" to 47". Its LED touch screen and height-memory function make personalized comfort simple.

### Smart storage

The integrated side cabinet has touch drawers.

### Discreet power management

Simply press the outlet when you need power ... otherwise, it stays neatly out of sight. The desk also is equipped with built-in wireless charging and under-desk cable management.

# Product Specification

EI88L-2.22  
W90×D83×H29-47(in)

EI88R-2.22
