

# Surflex

Surflex is less a panel system and more a set of building blocks you can configure at will. Each section is a block that fits easily together to build a solution in the size and style of your choosing.

## A new paradigm in systems furniture

No need to call the facilities team – with Surflex, you can reconfigure your space in a matter of minutes.

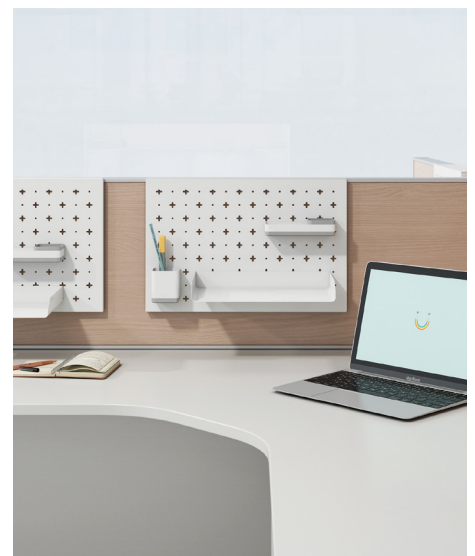

### Simple enough to DIY

Switch your panels among glass, metal, acrylic, fabric, laminate and whiteboard to customize your space.

### Build to your preferred height

Create panels as high or low as you wish. Top with screens for additional privacy, or add overhead storage.

### Smart options

Add fixed, mobile or overhead storage. Choose from 3 different styles of leg. Add pegboards to keep worktools organized.

# Product Specification

Order one of these pre-specified typicals, or create your own by talking to your dealer.
