

# UP1 Desk Accessories

**UP1 Desk Accessories keep your work area tidy with a clean, minimalist design that's highly functional.**

## Stack and combine

Accessories work on their own or together. The dimensions complement each other, so paper trays can be stacked, pencil cup set inside supplies tray, and all can be stacked on the mobile caddy.

## Removable felt pads

Felt pads line each piece, or can be removed if needed. The pads are stain-resistant and durable and help to minimize noise.

## Hanging or desktop

The nameplate holder, pencil cup and supplies tray have hooks that fit over panels and screens, so they can be hung or sit on desk surfaces.
