

# Model

## A model of versatility and durability

Each Model chair has unique advantages. The sled-base armless chair can be ganged and stacked. Sled-base model with arms can be hung on table edge for cleaning or storage. Model CMD50 has a storage basket for bags or laptops. Four-leg models have multi-directional glides or casters.

### Distinctive design

Seats feature a distinctive fishscale texture that's comfortable to the touch and available in 5 colors.

### Tested for durability

Bases are either Q195 carbon steel or sustainably sourced beech. Seats are a single piece of polypropylene and have been tested for impact resistance, durability and strength.

### Options

Tablet arm surface rotates 360°, while the arm rotates 180°. It can support up to 44 lbs and has a cupholder. Optional seat cushion has 0.4"-thick foam covered in moisture- and stain-resistant fabric.
