

H7

H7 features independently adjustable upper and lower backrests, providing targeted support for seven key areas: head, neck, back, lumbar, hips, legs, and arms. Its multi-dimensional adjustability ensures comprehensive spinal protection and lasting comfort.

Features

- The integrated headrest supports the head, neck, shoulders, and back without gaps
- The 3D headrest adjusts in angle, depth, and tilt to keep your head and neck comfortably aligned
- Back height adjusts up to 2.79in to fit users of different heights
- Lumbar support adjusts up to 1.65in in depth to stay supportive during forward-leaning work
- The curved, high-resilience seat cushions the hips without pressing the sit bones or thighs
- The headrest features a 40° adjustable bracket tilt angle.
- Backrest strength exceeds BIFMA standards by 1.2x for added safety while reclining
- Paint-free components reduce VOC emissions for a greener workspace
- The new velvet mesh is soft, breathable, and smooth against the skin

3D Headrest, 14.5in Extra-Wide

Backrest Height Adjusts 2.79in

Lumbar Support, 1.65in Adjustable Depth

The headrest features a 40° adjustable bracket tilt angle
