G4 		
US standard side coil out socket 304x53x39 1		

Attach the universal casters to the steel legs.

1

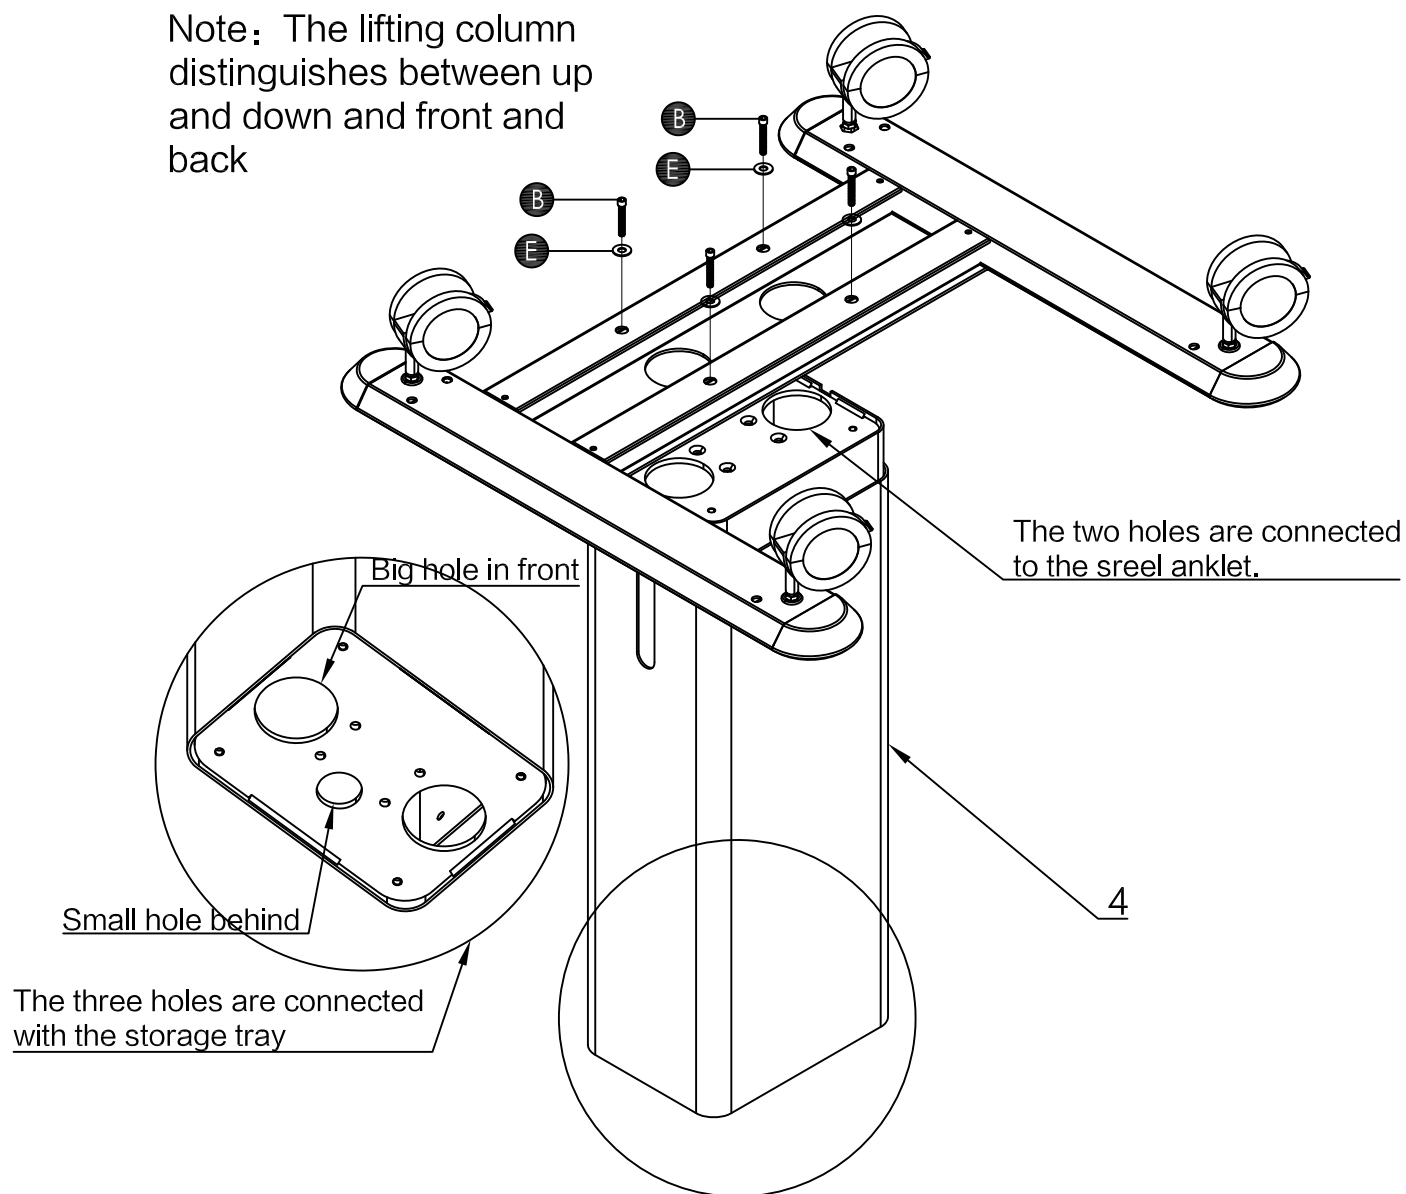

F 60x10x80
(x4)

Install the assembled steel legs onto the lifting columns.

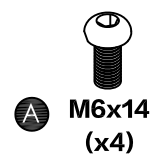

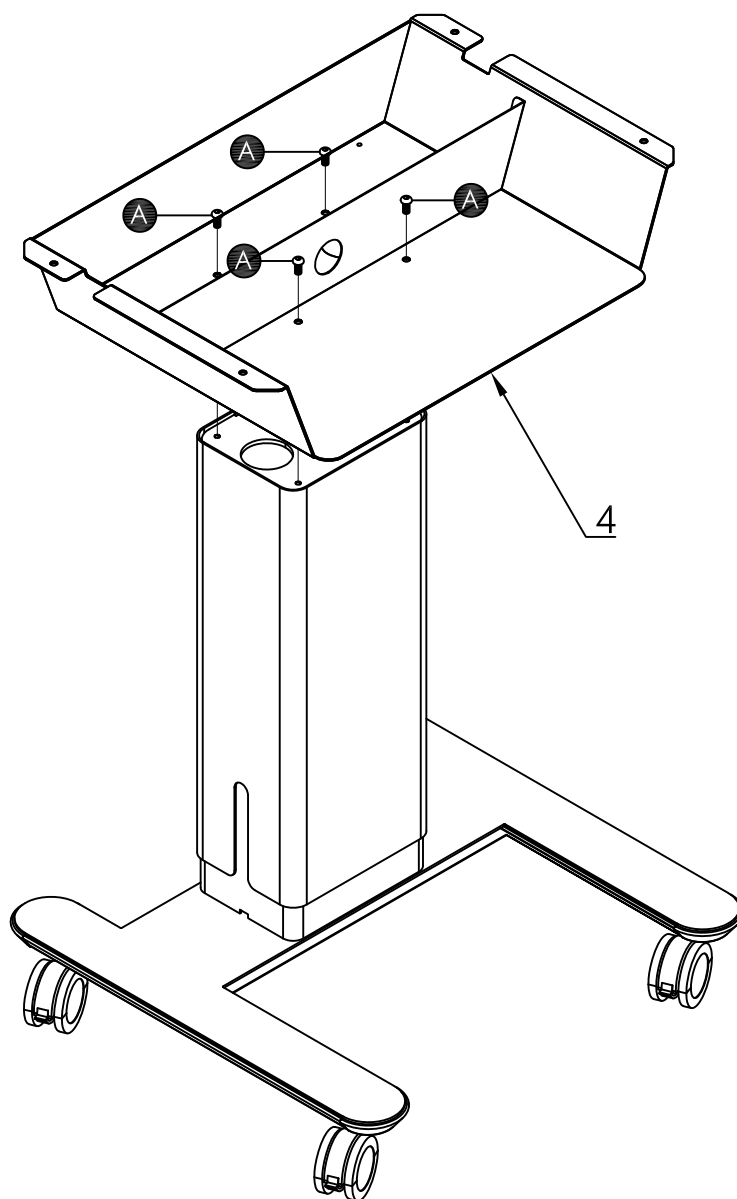

2

Note: The lifting column distinguishes between up and down and front and back

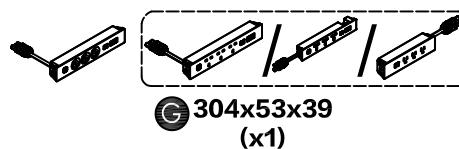

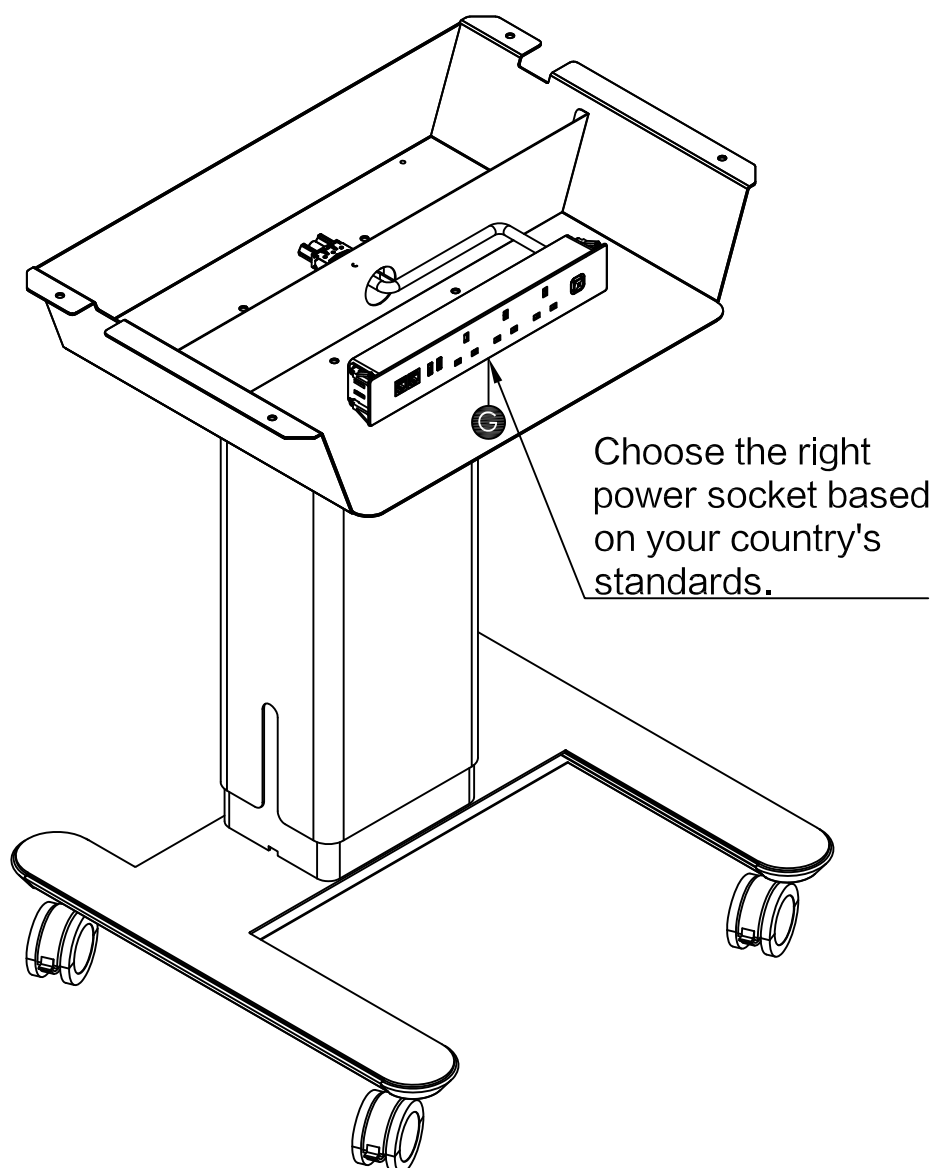

Mount the storage shelf onto the lifting columns.

3

Pass the power cord through the round hole in the tray.

4

Connect the internal wires of the tray, then attach the controller to the desk.

5

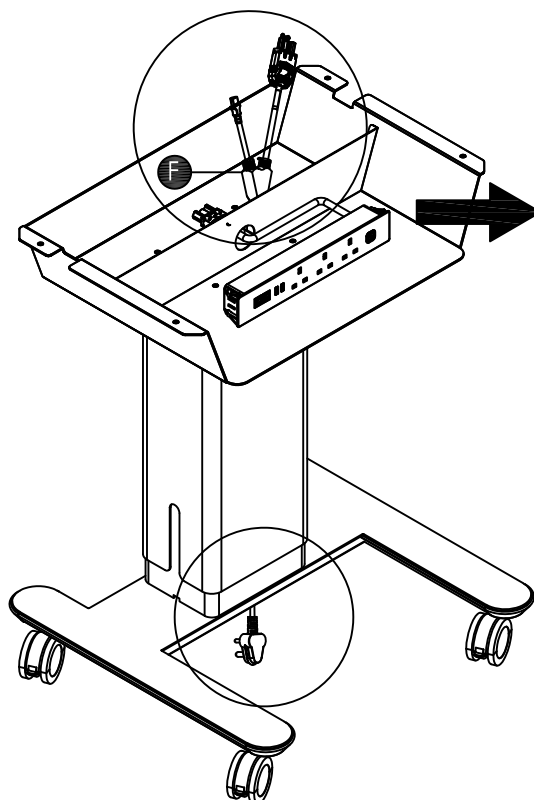

Connect the left side of the controller to the lift column and the hand control.

Connect the right side of the controller to the power cord.

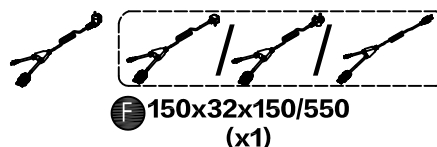

Plug the power cord into the socket.

Choose the right cable based on the power sockets.

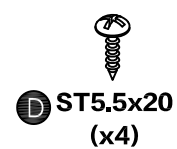

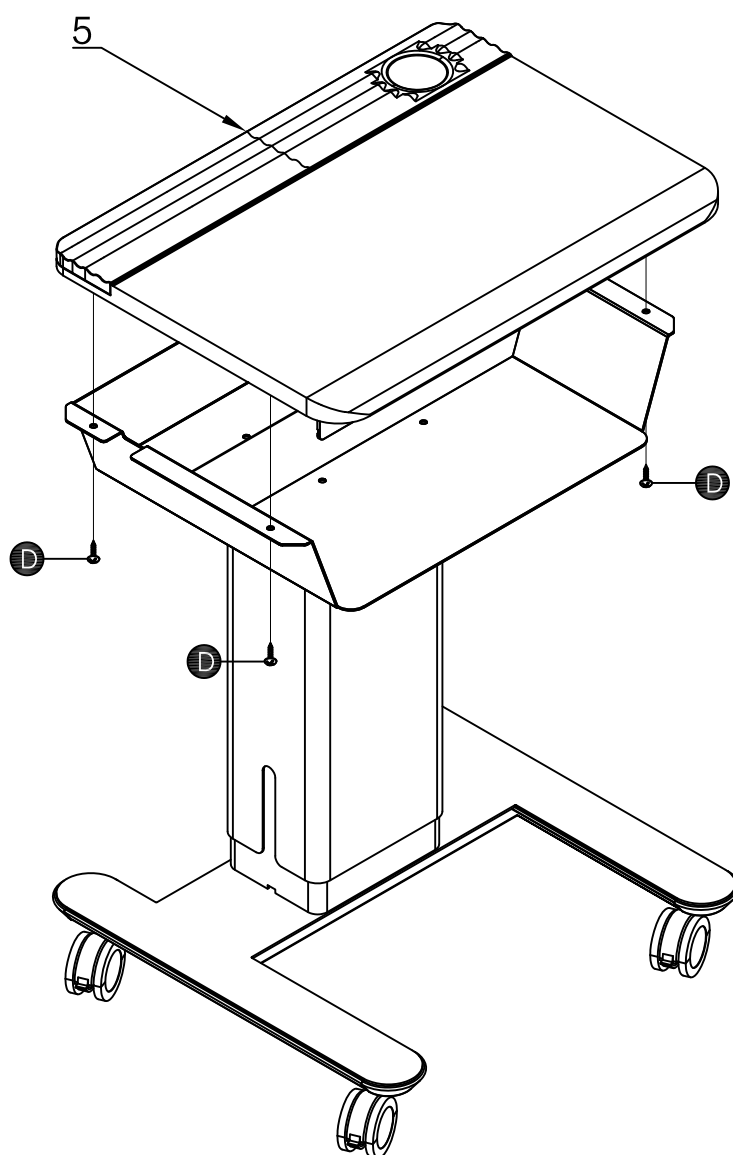

Run the plug of the power cord through the inside of the lift column and down to the base.

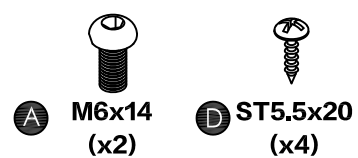

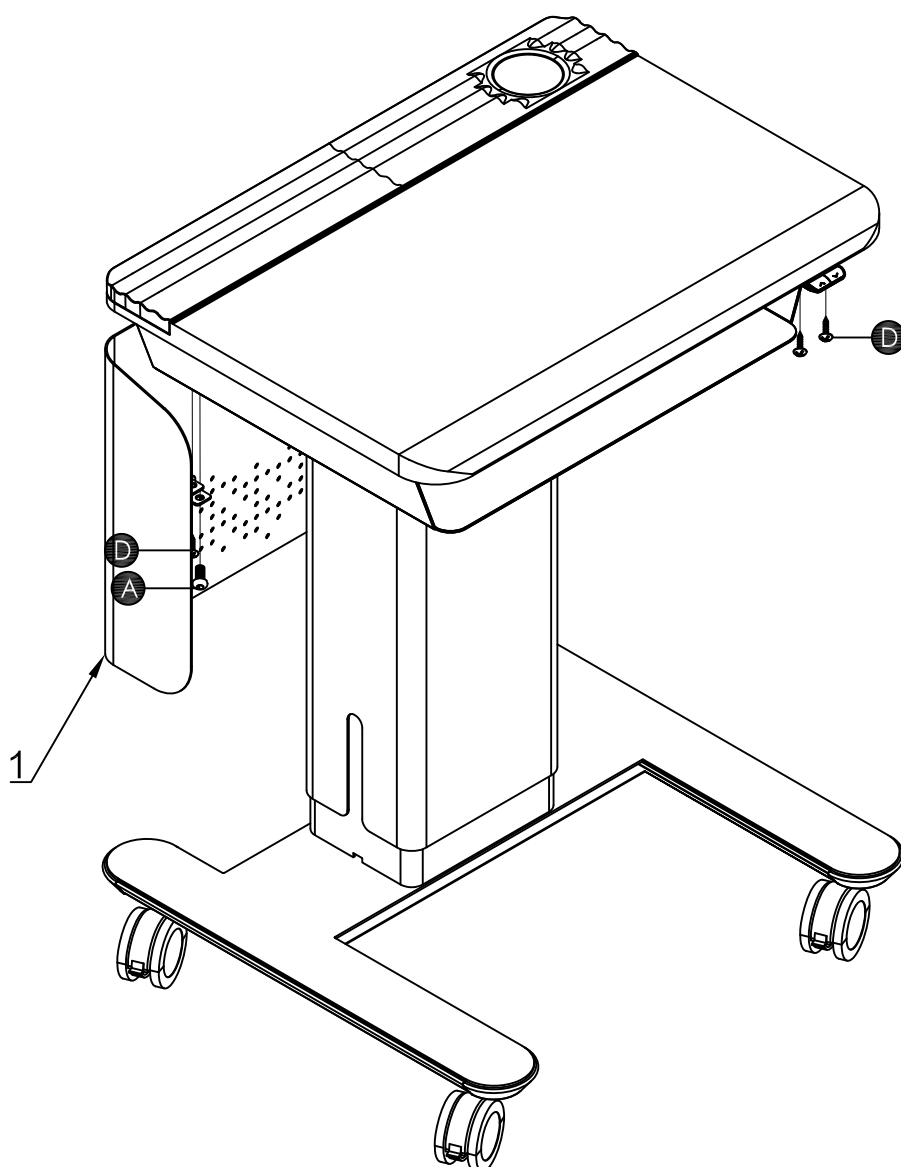

Secure the assembled tabletop onto the storage shelf.

6

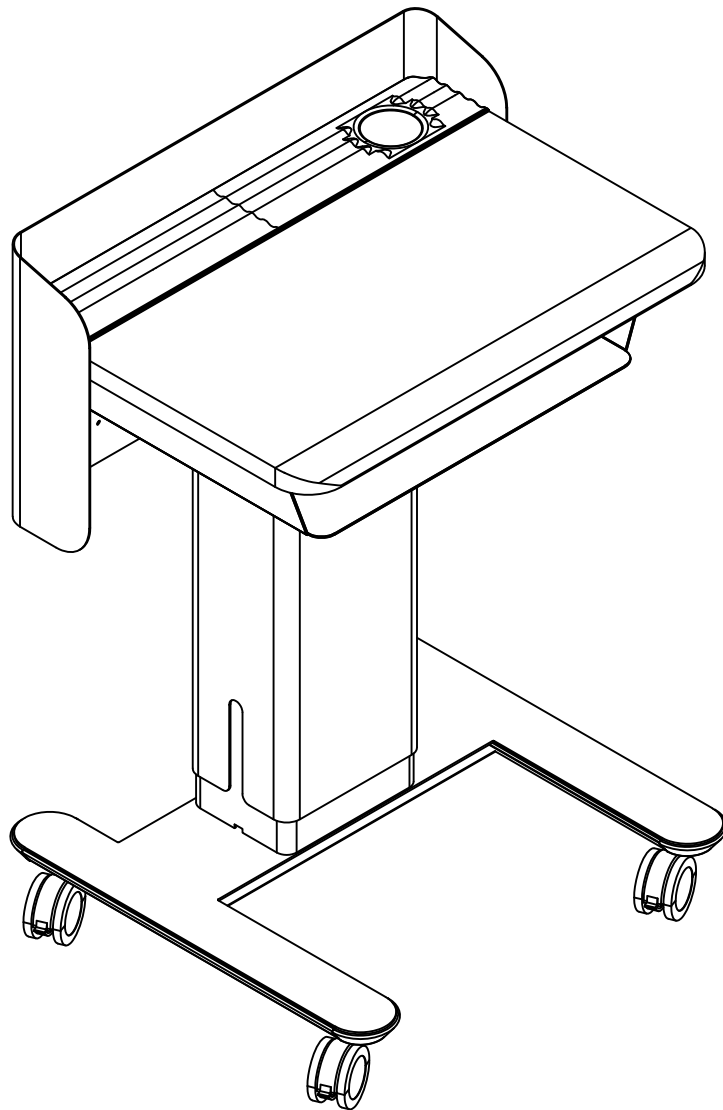

Secure the front baffle onto the tabletop and fix the controller onto the tabletop.

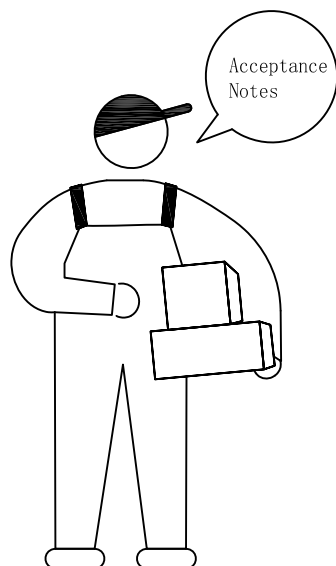

7

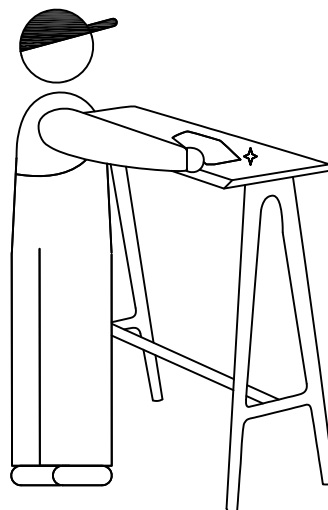

Done !
